INTERNATIONAL GEOLOGY REVIEW is published monthly by the Translations Office of the American Geological Institute, One Skyline Place, 5205 Leesburg Pike, Falls Church, Virginia 22041. Translated papers in these issues are selected from Russian geological journals in all disciplines on the advice of the Translations Subcommittee of the AGI Publications Committee and Daniel E. Appleman, Chairman, Department of Mineral Sciences, Smithsonian Institution; Michael Fleischer; Nicholas Rast, Hudnal Professor of Geology, University of Kentucky; and Ted Schweisberger, EXXON Production Research Company. We occasionally publish papers translated from other foreign languages. IGR has an annual subject and author index. Copyright © 1980 American Geological Institute.
